EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Valentine Cottrill on July 26, 2006.

The application has been amended as follows:

- 2. (Currently amended)

A flame simulating assembly for providing at least one image of flames, the flame simulating assembly comprising:

at least one light source;

at least one flame effect element for configuring light from said at least one light source to produce said at least one image of flames;

a first screen positioned in a first path of light from said at least one light source, the first screen being adapted to receive light from said at least one light source to form said at least one image of flames transmittable through the first screen;

a second screen positioned in a second path of light from said at least one light source, the second screen being adapted to receive light from said at least one light source to form said at least one image of flames transmittable through the second screen;

the first screen and the second screen at least partially defining substantially vertical planes respectively; and
said at least one light source being positioned substantially between said planes.--

--3. (Currently amended)

A flame simulating assembly according to claim 2 ~~additionally comprising at least one flame effect element for configuring light from said at least one light source to produce said at least one image of flames~~, wherein said at least one flame effect element is being positioned in said ~~at least one~~ first path of light and said second path of light.--

--5. (Currently amended)

A flame simulating assembly according to claim 2 ~~additionally comprising at least one flame effect element for configuring light from said at least one light source to produce said at least one image of flames~~, said at least one flame effect element being positioned in said first path of light between said at least one light source and the first screen and in said second path of light between said at least one light source and the second screen.--

2. Claims 2, 3, 5, 6, 20, 21, 23 and 24-45 are allowable. Claims 7-17 and 46-60, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among inventions I through XXIV, as set forth in the Office action mailed on July 25, 2005, is hereby withdrawn** and claims 7-17 and 46-60 are hereby rejoined and fully

examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim(s) including all the limitations of an allowable claim is presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
